

AXORA Bank

Customer Banking Policies

Document Version: 3.2

Effective Date: 01 September 2026

Document Type: Customer Service and Banking Operations Policy

Bank: AXORA Bank Ltd.

Note: AXORA Bank is a fictional bank created for educational and demonstration purposes. The policies below are not the policies of any real financial institution.

1. Savings Account Policy

1.1 Account Maintenance

AXORA Bank offers savings accounts to individual customers for personal banking and savings purposes.

Customers are expected to maintain the applicable **Monthly Average Balance (MAB)** in their savings account.

For a standard savings account, the required Monthly Average Balance is **₹5,000**.

Customers whose account balance falls below the applicable requirement may be charged a non-maintenance fee according to the bank's current schedule of charges.

Customers should refer to the latest schedule of charges before making financial decisions.

1.2 Zero-Balance Accounts

Certain specially designated savings products may be maintained without a minimum balance requirement.

The minimum-balance requirement applicable to one savings product should not be assumed to apply to another account type.

Customers should verify the account variant before determining whether a balance requirement applies.

1.3 Savings Account Closure

A customer wishing to close a savings account must submit an account-closure request through an AXORA Bank branch or an approved digital channel where such facility is available.

The customer must:

1. Submit the completed account closure request.
2. Provide valid identification for verification.
3. Return unused cheque leaves associated with the account, where applicable.
4. Return the debit card or follow the bank's procedure for reporting a card that cannot be returned.

5. Provide instructions for transferring the remaining account balance.

Any outstanding charges, liabilities, or holds must be settled before the account can be permanently closed.

Account closure may take up to **7 working days** after all required information and documents have been received and verified.

2. Know Your Customer (KYC) Policy

2.1 Purpose of KYC

AXORA Bank follows customer identification and verification procedures to establish the identity and address of customers and to comply with applicable banking and regulatory requirements.

Customers may be required to provide identity and address information when opening an account or when the bank requests an update.

2.2 Acceptable KYC Documents

For an individual customer, acceptable officially recognized documents may include:

- Passport
- Driving licence
- Voter identification document
- Government-issued identity document
- Other documents accepted under applicable regulatory requirements

The bank may request additional documentation when necessary to complete customer verification.

2.3 Address Verification

If the address appearing on the submitted identification document is not the customer's current correspondence address, the bank may request an additional address document.

Examples may include:

- Recent utility bill
- Property tax receipt
- Bank statement
- Registered rental agreement
- Other officially accepted address proof

The document must satisfy the bank's applicable validity and verification requirements.

2.4 Periodic KYC Update

Existing customers may be required to periodically update their KYC information.

The frequency of KYC review may depend on the customer's risk classification and applicable regulatory requirements.

Customers should respond to KYC update requests within the specified period.

Failure to complete required KYC updates may result in restrictions on certain account services.

3. IMPS Fund Transfer Policy

3.1 Immediate Payment Service

AXORA Bank provides Immediate Payment Service (IMPS) for electronic fund transfers.

IMPS transactions are generally available **24 hours a day, including weekends and bank holidays**, subject to system availability and applicable service conditions.

3.2 Transaction Processing

A successfully completed IMPS transaction is normally processed within **a few minutes**.

However, processing may take longer because of:

- Technical problems
- Network failures
- Beneficiary bank issues
- Incorrect beneficiary information
- Security checks
- Scheduled maintenance
- Other circumstances affecting the payment network

The transaction status displayed by the bank should be checked before initiating another transfer.

3.3 Failed IMPS Transactions

If an account is debited but the beneficiary does not receive the funds, the customer should first verify the transaction status.

Customers should retain the transaction reference number when contacting the bank.

The bank may investigate the transaction with the participating payment institutions.

Customers should not immediately initiate another transaction merely because the beneficiary has not yet received the funds.

3.4 Incorrect Beneficiary Details

Customers are responsible for verifying the beneficiary's account number and other required details before confirming a transaction.

AXORA Bank may not be able to reverse a successfully completed transaction solely because the customer entered incorrect beneficiary information.

4. Debit Card Policy

4.1 Debit Card Usage

AXORA Bank debit cards may be used for eligible ATM withdrawals, point-of-sale transactions, online transactions, and other services supported by the customer's card type.

Certain transactions may be subject to security controls and transaction limits.

4.2 Damaged Debit Card

Customers whose debit cards are physically damaged may request a replacement card.

The customer should:

1. Contact AXORA Bank through an approved customer-service channel or visit a branch.
2. Request replacement of the damaged card.
3. Complete the required customer verification.
4. Return the damaged card if requested by the bank.
5. Pay the applicable replacement fee, where such fee applies.

A replacement card is normally dispatched within **5–7 working days** after successful verification and processing.

Delivery time may vary depending on the customer's location.

4.3 Lost or Stolen Debit Card

Customers who lose their debit card or believe that the card has been stolen should immediately report the incident to AXORA Bank.

The card should be blocked as soon as possible to reduce the possibility of unauthorized transactions.

Customers can request a replacement card after completing the required verification process.

4.4 Unauthorized Transactions

Customers should report transactions that they do not recognize as soon as possible.

The bank may request transaction details and supporting information while investigating the complaint.

The outcome of an investigation depends on the transaction type, applicable regulations, security checks, and circumstances of the case.

5. ATM Policy

5.1 Cash Withdrawal

Customers may withdraw cash using an active AXORA Bank debit card at eligible ATMs, subject to applicable daily limits.

ATM withdrawal limits may vary depending on the customer's card variant.

5.2 Failed Cash Withdrawal

If an ATM transaction fails but the customer's account is debited, the customer should retain the transaction information and report the issue through the bank's approved complaint channel.

The bank will verify the transaction and coordinate with the relevant ATM/payment network when necessary.

Customers should avoid repeatedly attempting the same transaction when the account has already been debited.

6. NEFT and RTGS Policy

6.1 NEFT

NEFT is an electronic fund transfer mechanism used to transfer money between participating bank accounts.

Customers should provide accurate beneficiary information before confirming a transfer.

Processing time may depend on transaction processing, banking systems, and beneficiary bank availability.

6.2 RTGS

RTGS is intended for high-value fund transfers where applicable.

AXORA Bank may specify minimum transaction values, applicable charges, and service conditions according to its current schedule and regulatory requirements.

Customers should verify the applicable limits and charges before initiating a transaction.

7. Fixed Deposit Policy

7.1 Opening a Fixed Deposit

Customers may open a fixed deposit by transferring funds from an eligible AXORA Bank account or through other approved methods.

The interest rate applicable to a fixed deposit depends on:

- Deposit amount
- Tenure
- Deposit product
- Customer category
- Interest-rate schedule applicable on the date of booking

7.2 Premature Withdrawal

Customers requesting premature closure of a fixed deposit may receive interest according to the bank's applicable premature-withdrawal rules.

A penalty or reduced interest rate may apply.

Customers should review the applicable terms before requesting premature closure.

8. Personal Loan Policy

8.1 Eligibility

Personal loan eligibility depends on factors including:

- Customer income
- Employment status
- Existing financial obligations
- Credit history
- Age
- Repayment capacity
- Internal bank assessment

Meeting one eligibility criterion does not automatically guarantee loan approval.

8.2 Required Documents

Depending on the customer's profile, the bank may request:

- Identity proof
- Address proof
- Income documents
- Salary slips
- Bank statements
- Employment-related documents
- Other documents required during credit assessment

The bank may request additional documents during the application process.

9. Home Loan Policy

9.1 Home Loan Application

Customers applying for a home loan are required to complete the bank's application and credit-assessment process.

The bank may evaluate:

- Income
- Existing liabilities
- Credit history
- Employment or business stability
- Property details
- Repayment capacity

9.2 Property Documents

Depending on the property and transaction, the bank may request documents relating to:

- Ownership
- Sale agreement
- Approved building plan
- Property tax
- Encumbrance information
- Other legal and technical verification requirements

Loan approval is subject to satisfactory completion of credit, legal, technical, and other required checks.

10. Customer Complaints

Customers may report banking problems through approved AXORA Bank customer-service channels.

When reporting a transaction-related complaint, customers should provide:

- Customer/account identification information requested by the bank
- Transaction date
- Transaction amount
- Transaction reference number
- Description of the issue

Customers should never disclose their ATM PIN, internet banking password, OTP, CVV, or other confidential authentication information to bank employees or third parties.

11. General Disclaimer

Banking products, charges, transaction limits, processing times, eligibility requirements, and other conditions may change.

Customers should verify the latest applicable terms before making a financial decision.

In case of a conflict between this educational document and the bank's latest official terms, the latest official terms shall prevail.
